Do you have any questions or concerns about school that you would like to discuss?

We are happy to talk with you about

- Matters of a general school nature (curriculum, policies, school events, etc.)
- Personal concerns relating to your own child or children.

Parents or caregivers are not to approach other students directly.

We believe that the school environment should be safe and supportive for all students, families and staff. As a student, staff member, parent or caregiver, your concerns or grievances will be treated seriously and respectfully.

The first step in a grievance procedure is to calmly and respectfully approach the person who knows most about your concern.

However if you feel unable to do this or if there is not a satisfactory resolution to the problem, this policy brochure outlines a series of steps you may choose to follow.
